

Homework 1: Personal Portfolio Website (HTML)

Objective

Create a personal portfolio website using HTML. Your website should include a section about yourself, a list of your skills, details about projects you've worked on, and a contact section. Make sure your website is well-organized and all the links and images work correctly.

File Format and Submission Instructions

1. Create a folder named with your student ID ([e.g., hw1_studentD.html](#)).
2. Include all necessary HTML files and images.
3. Compress the folder into a [.zip](#) file named [hw1_studentID.zip](#).
4. Upload the ZIP file in the homework section of the portal.

Deadline:

Submit your homework **before October 18, 2024**.
